Contemporary art gallery meets breathtaking ocean views

This privately owned four-bedroom residence is perched on one of the highest points of Félicité, offering almost 360-degree views of the ocean and surrounding islands. There is never a dull corner in this residence which features contemporary and classical art pieces. From Helmut Newton's classic black & white photography to Piero Fornasetti plates, the main living room on the lower level is an art gallery by itself, with unexpected artistic elements that pop up in each corner. Large floor-to-ceiling windows allow plenty of natural light in the residence, enhancing the modern interior design. The master bedroom on the upper level features its own plunge pool and gives stunning island and ocean views. All bedrooms include additional unique art pieces which add to their playful design style featuring ensuite bathrooms. An expanded terrace with a dining table and sitting area calls for relaxing moments for family or friends travelling together.
